

Interscope Manufacturing Inc.
In-house Machining Capabilities

(3) DeVlieg Jig Mills with CNC Controls

Capacities up to 60" x 120"
(.001" tolerances)

(4) CNC Vertical Machining Centers

Capacities up to 39" x 60" (2 equipped with CNC rotary tables)
(.0005" tolerances)

(6) CNC Turning Centers

Capacities up to 18" diameter x 80" long
(.0005" tolerances)

(1) CNC Lathe/Mill Center

Capacities up to 18" diameter x 80" long
(.0005" tolerances)

(8) CNC Knee Mills

14" x 42" Capacities (.001" tolerances)

(4) Manual Lathes

Capacities up to 14" diameter x 72"
(.001" tolerances)

(1) Wire EDM

14" x 22" Capacity
(.001" tolerances)

(2) Jig Grinders

14" x 22" Capacity
(.0002" tolerances)

(2) Surface Grinders

Capacities up to 16" x 36"
(.0002" tolerances)

(1) Magnetic Particle Inspection

18" diameter x 72" long

MIG, TIG, and Arc Welding of Steel, Stainless Steel, and Aluminum

Finishes available range from a standard machined finish to a (polished) mirror finish. Our large paint booth supports a multitude of part sizes and paint applications. Specialty finishes such as black oxide, plasma, zinc oxide, etc. are obtained as needed.
